

Project Design Phase – 2

Solution Architecture

Date	19 September 2022
Team ID	PNT2022TMID44886
Project Name	Analytics for hospital health care data
Maximum Marks	4 marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders
- Define features, development phases, and solution requirements
- Provide specifications according to which the solution is defined, managed, and delivered
